

**Flour Bluff Independent School District
2505 Waldron Road
Corpus Christi, Texas 78418**

**IMPORTANT INFORMATION REGARDING
H1N1 VACCINATION CLINICS**

**FOR PARENTS OF
HIGH SCHOOL STUDENTS**

The Corpus Christi-Nueces County Health Department has received H1N1 vaccinations and will be conducting a clinic for Flour Bluff ISD students and staff at:

- The High School campus **for all high school students and staff** on December 8, 2009 from 3:45 p.m. to 6:30 p.m. in the High School Cafetorium.

The Health Department has mostly H1N1 injectable/shot (dead virus) vaccines and some nasal (live, attenuated virus) vaccines available at this time. Students or staff who have asthma, heart conditions or other health conditions should not take the nasal vaccine, but may be eligible for the injectable vaccine.

Parents **MUST** be present with their children in order for the children to receive a vaccination. Vaccinations will only be given to children enrolled at the designated campuses. Important questions regarding the current health of your child will be asked, prior to allowing your child to participate in the vaccination. There are also forms and permissions that must be completed on site in order for the child to receive the vaccination.

All parents will need to have a current picture ID available to show staff at the time of the clinic. Also, parents should bring the child's current immunization record, if available.

If you have questions, please call the office staff at the high school, at 694-9195.
